Sitemap & Navigation

Sitemap

The Sitemap is planning tool for web design that lists the pages on a web site, organizing them in hierarchical fashion. They are used to show the relationship between the pages, display user pathways, and if possible, indicate which templates used for each page. Throughout the process they are constantly updated to reflect any changes made to the site's navigation structure or classification scheme.

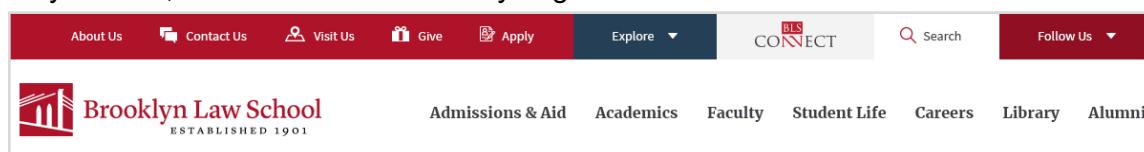

The Sitemap can be found at the following link:

<https://6bnqth.axshare.com>

Header

The site's Header serves as the major roadmap and compass for users accessing the site.

Consistent and informative navigation helps to ensure that users are able to identify where they are, where the content they need is, and what the easiest way to get to that content is.

1. Title (ed)

Business Reorganizations

2. Description (ed)

It is recommended but not required to take Corporations prior to or concurrently. This course concentrates on Chapter 11 of the Bankruptcy Code, dealing with business reorganizations. The course follows a hypothetical Chapter 11 case from commencement to confirmation. The shifting and competing interests of parties to Chapter 11 cases are identified and explored. Students are taught both the techniques and strategies of Chapter 11 practice, as well as the history and philosophy of business rehabilitation.

Grading and Method of Evaluation

Letter grade with pass/fail option. Final exam.
